# Successful bid price of residential solar battery project in Singapore 2026

## Overview

---

This is the largest initiative under the government-led Solar Nova program, which aims to accelerate the expansion of solar energy. Under the award, EDP Renewables is committed to deliver a minimum tender capacity of 130 MWp, with the potential to reach 200 MWp of solar capacity with this project.

This is the largest initiative under the government-led Solar Nova program, which aims to accelerate the expansion of solar energy. Under the award, EDP Renewables is committed to deliver a minimum tender capacity of 130 MWp, with the potential to reach 200 MWp of solar capacity with this project.

More than 320,000 solar panels are expected to be installed on 1,075 public residential buildings in Singapore and 101 government buildings, including 55 public schools, as part of the project realization. This is the third Solar Nova tender that EDPR has won, and it will also serve as a platform.

The latest tender brings the number of Housing Board blocks in Singapore that will be fitted with solar panels to about 9,500. SINGAPORE - The Housing Board has awarded a tender to Sunseap Leasing - an entity of EDP Renewables - to install solar panels at about 1,075 HDB blocks and 101 government.

[CCCC Wins the Bid for Singapore Residential Building Photovoltaic Solar Project] CCCC won the bid for the fourth phase of the residential building photovoltaic solar project of the Singapore HDB. The main project content is the planning and utilization of the Singapore HDB roof space, design and.

EDP Renewables (Euronext: EDPR), a global leader in renewable energy development, has been awarded Phase 8 of the SolarNova program, a Singapore public tender to select a developer of distributed solar energy. The auction was jointly led by Singapore's Housing and Development Board and Singapore's.

Singapore, December 12, 2023 - Sembcorp Industries (Sembcorp) is pleased to announce that its wholly-owned subsidiary, Sembcorp Solar Singapore, has been awarded a tender by JTC to solarise interim vacant land and rooftops of

five buildings on Jurong Island with a contracted capacity of 117MWp.

Sembcorp Industries' subsidiary, Sembcorp Solar Singapore, has won a tender from JTC to solarise interim vacant land and rooftops across five buildings on Jurong Island. The firm said that the contracted capacity for this project amounts to 117MWp (80MW). This will make it the largest project by.
