He said the facility is designed to deliver 20 megawatts of power using state-of-the-art solar and battery systems that will help stabilise the country's electricity grid.

THE government has inked a power purchase agreement with CVB Utility Company Limited to construct a 20-megawatt solar plant and five MWh battery storage system in New Providence — a move officials say will reduce fuel costs, strengthen energy reliability, and push The Bahamas closer to its clean.

The Bahamas Utilities Regulation and Competition Authority (URCA) has approved a landmark power purchase agreement (PPA) between Shell North America and Bahamas Power and Light (BPL) to construct a 132-MW solar plant and a 25-MW battery system on New Providence Island. This ambitious project is set.

With this agreement, we accelerate our mission to achieve 30% renewable energy by 2030. As we advocate for more international action to lower global carbon emissions, we are demonstrating to the world that we will lead by example. INTI's solar project will integrate seamlessly into the national.
