

## Global PV Storage Insights

# Successful bid price of solar plus storage project in Saudi Arabia 2030

## Overview

---

Saudi Electricity Company (SEC) has secured two massive battery energy storage systems totaling 4.9 GWh at a cost of just USD 73-75 per kilowatt-hour (kWh) installed, marking a potential turning point for energy storage economics outside China.

Saudi Electricity Company (SEC) has secured two massive battery energy storage systems totaling 4.9 GWh at a cost of just USD 73-75 per kilowatt-hour (kWh) installed, marking a potential turning point for energy storage economics outside China.

Saudi Power Procurement Company (SPPC) is inviting bids for the construction of four battery energy storage system (BESS) projects, each designed to deliver 500MW of output and 2,000MWh of storage capacity. These projects will be awarded through 15-year Storage Services contracts under a.

The SPPC has invited bids for large-scale Battery Energy Storage Systems (BESS), with submissions due by 2 June 2025. The Saudi Power Procurement Company (SPPC) has issued a Request for Proposals (RFP) for Group 1 Battery Energy Storage Systems (BESS) projects, inviting qualified bidders to.

According to foreign media reports, the Saudi Power Procurement Company (SPPC) has officially announced the list of prequalified bidders for its first battery energy storage system (BESS) procurement. The state-owned enterprise revealed on December 30 the companies selected for its upcoming.

At present, SPPC sets the bid submission date as 02 June 2025. Each project will be developed under a build-own-operate (BOO) model, with the successful bidder holding 100 per cent equity in the special purpose vehicle (SPV) set up to develop and operate the Independent Storage Provider (ISP).

Riyadh, Kingdom of Saudi Arabia, May 21, 2024 -- Sungrow, the global leading PV inverter and energy storage system provider, has forged a strategic partnership with Larsen & Toubro to supply 165MW PV inverters and 160MW/760MWh energy storage systems for AMAALA, a prestigious

destination in Saudi.

Saudi Electricity Company (SEC) has secured two massive battery energy storage systems totaling 4.9 GWh at a cost of just USD 73-75 per kilowatt-hour (kWh) installed, marking a potential turning point for energy storage economics outside China. Energy storage costs have been on the sort of slide. Will Saudi Arabia be able to deploy battery energy storage systems by 2030?

According to Saudi Energy Minister Prince Abdulaziz bin Salman, the nation has set a goal of deploying 48GWh of battery energy storage systems by 2030. This ambitious target not only supports Saudi Arabia's energy transition but also injects fresh momentum into the global renewable energy and energy storage markets.

How many energy storage projects will a bidder sign with SPPC?

The selected bidders will sign 15-year energy storage service agreements with SPPC for four 500MW/2000MWh BESS projects. The bidders will retain 100% ownership of their special purpose vehicle (SPV) projects. The four upcoming energy storage projects, all identical in scale, are strategically located within Saudi Arabia.

When is the bid submission date for a Special Purpose Vehicle (SPV) project?

At present, SPPC sets the bid submission date as 02 June 2025. Each project will be developed under a build-own-operate (BOO) model, with the successful bidder holding 100 per cent equity in the special purpose vehicle (SPV) set up to develop and operate the Independent Storage Provider (ISP) project.

### Saudi Arabia invites RFQ for Group 1

Saudi Power Procurement Company (SPPC) invites Request for Qualification (RFQ) for Group 1 Battery Energy Storage Systems (BESS) having Combined Capacity of 2,000 MW across Saudi Arabia on build, own and ...

### Battery Energy Storage Systems (BESS) in Saudi Arabia: ...

Saudi Arabia's clean energy transition under Vision 2030 relies on Battery Energy Storage Systems (BESS) to enhance grid stability, reduce carbon emissions, and optimize renewable ...

### Sungrow Signs the 760MWh Off-Grid Energy Storage ...

This collaboration aligns with Saudi Arabia's Vision 2030 and China's Belt and Road Initiative, marking a pivotal moment in sustainable energy development.

### Solar PPAs viable in Saudi Arabia at prices above ...

Saudi scientists have determined the current price threshold for power purchase agreements (PPA) that could make large-scale PV and wind

power projects viable in Saudi Arabia. They incorporated

## Saudi Arabia's Strategic Military Expansion and Vision

...

Saudi Arabia is making significant strides in strengthening its military capabilities, with plans to increase its defense budget to \$78 billion by 2030. This move is part of Crown Prince Mohammed bin Salman's Vision 2030 ...

## Saudi Arabia's Vision 2030:

Saudi Arabia's Vision 2030 aims to unleash the Kingdom's potential by developing alternatives to an overreliance on oil as its source of economic strength. The 2014-15 collapse ...

## LEVERAGING ENERGY STORAGE SYSTEMS IN MENA

Saudi Arabia and the UAE have been setting record low tariffs for solar energy projects. In Saudi Arabia, each of the two awarded rounds of the Renewable Energy Project Development Office ...

## Saudi Arabia Approves 33 Firms for Groundbreaking ...

4 ???· The successful implementation of BESS projects will significantly contribute to Saudi Arabia's goal of increasing the share of renewable energy in its power mix, targeting 50% by 2030. The strategic focus on energy storage ...

## Saudi Arabia lines up solar projects for 3.7 GW

The request for proposals issued in February 2024 by the SPCC covered four projects with a combined total generation capacity of 3.7GW: the 2-GW Al Sadawi Solar PV IPP, the 1-GW Al Masa'a Solar PV IPP, the 400 ...

## Saudi Arabia issues RFP for 2,000 MW Battery ...

Saudi Power Procurement Company (SPPC) issued the Request for Proposals (RFP) to the Qualified Bidders for Group 1 Battery Energy Storage Systems (BESS). The Combined Capacity of the Projects is 2,000 MW/8000 ...

## PPPs in Saudi Arabia: Vision 2030 Projects

In conclusion, public-private partnerships in Saudi Arabia are more than just a financing tool; they are a strategic instrument to achieve a modern, diversified economy as envisioned in Vision 2030. The trends point to ...

## EDF Renewables and SPIC HHDC Consortium wins bid for two solar ...

The 1,000 MW Al Masa'a project is located in the Dharghat Town, Hail province, Saudi Arabia Set to be flagship solar plants in the Kingdom, the projects will be developed, ...

## Accelerating Saudi Arabia's Renewable Power: 300

Discover how Saudi Arabia is accelerating its renewable energy initiatives, aiming to achieve its Vision 2030 target of 130GW of renewable power capacity by enhancing ...

## Saudi Invites Bids For 2,000 MW Energy Storage Project

To date, over 10,100 MWac of solar PV and wind projects have already been tendered on a competitive basis. The introduction of large-scale BESS projects will further ...

## Saudi Arabia Solar Energy Market: Rapid Growth to 2030

Saudi Arabia's solar energy market is undergoing rapid expansion, with its value expected to rise from USD 2.5 billion in 2024 to USD 7.72 billion by 2030, according to ...

## Saudi targets 48GWh battery storage by 2030, ...

Saudi Arabia has initiated a qualification process for its first set of Battery Energy Storage System (BESS) projects under the Public-Private Partnership (PPP) model, aiming for 48 Gigawatt-hours (GWh) of storage ...

## Saudi Arabia Advances Vision 2030 with 1,400 MW ...

In a significant development during the Saudi Investment Forum, a consortium led by EDF Renewables Middle East and SPIC HHDC has finalized a Power Purchase Agreement (PPA) with the Saudi Power Procurement ...
