

## Global PV Storage Insights

# Successful bid price of utility scale ESS project in Poland 2030

## Overview

---

The auction held by Polskie Sieci Elektroenergetyczne S.A. (PSE - an electricity transmission system operator in Poland and the sole operator of the country's high-voltage transmission lines, 100 percent owned by the State Treasury) on December 12, 2024, ended in the seventh Dutch auction.

The auction held by Polskie Sieci Elektroenergetyczne S.A. (PSE - an electricity transmission system operator in Poland and the sole operator of the country's high-voltage transmission lines, 100 percent owned by the State Treasury) on December 12, 2024, ended in the seventh Dutch auction.

Polish utility PGE Group has launched a tender for the design and construction of a battery storage facility with a minimum capacity of at least 900 MWh. Meanwhile, Ukraine's DTEK has completed the acquisition of a 532 MWh battery storage project in southern Poland. Polish state-owned energy company.

The results of Poland's recent capacity market auction have been revealed, with a clearing price significantly lower than the previous years and IPP Greenvolt saying it won the lion's share of around 1.7GW of BESS awarded contracts. The auction which took place last month (December 2023) cleared at.

Greenvolt Group, through Greenvolt Power, a subsidiary responsible for global development, construction, and operation of utility-scale wind, solar, and energy storage projects, was the top winner in the Polish capacity auction held in December 2023. Following information from Jan 5th, 2024 of the.

As expected, Poland's latest capacity market auctions have highlighted a significant shift towards the battery energy storage systems (BESS) beside the fact that the de-rating factor has been significantly decreased. The auction held by Polskie Sieci Elektroenergetyczne S.A. (PSE - an electricity.

The Polish government has recently announced a significant policy initiative aimed at advancing the country's net-zero carbon emissions goals, with a particular focus on energy storage solutions. This comes on the heels of a

historic €1.2 billion (\$1.3 Billion) allocation from the European.

Around the time of the 2023 auction, research firm LCP Delta wrote that Poland would lead BESS deployments in the Central and Eastern Europe (CEE) region with around 9GW of projects awarded grid connections. Energy-Storage.news" publisher Solar Media will host the 2nd Energy Storage Summit Central. How many Bess projects were included in the bidding for energy projects?

n Europe on 24-25 September this year . At the end of 2022, BESS projects were included in the bidding for energy projects in Poland for the first time. In January 2024, the Polish Energy Regulatory Office announced the results of the energy storage tender, and Greenvolt became the biggest winner of the bidding, inning 6 projects with a total of.

Will the capacity market kickstart the large-scale Bess market in Poland?

The capacity market is set to kickstart the large-scale BESS market in Poland by providing the basic building blocks of the business case, according to numerous delegates interviewed by Energy-Storage.news at Energy Storage Summit Central Eastern Europe (CEE) 2023 in Warsaw in September.

How many Bess market units won the 2024 auction?

Even more surprising was their performance in the December 2024 auction: out of the 245 Market Units that won the main auction for the 2029 delivery year, 82 were identified as BESS.
