Total investment cost of solar storage container project in Egypt

Overview

The total cost of the project is estimated at \$650 million. Around 80% will be funded through project debt, while the remaining amount will come from equity investments. Scatec owns 100% of the project but plans to bring in additional equity partners.

The total cost of the project is estimated at \$650 million. Around 80% will be funded through project debt, while the remaining amount will come from equity investments. Scatec owns 100% of the project but plans to bring in additional equity partners.

The project will deliver a 1.1 GW solar photovoltaic (PV) plant and a 200 MWh battery energy storage system (BESS) in the Nagaa Hammadi region of Upper Egypt. Total investment costs are estimated at US\$590 million, with blended finance covering approximately 80 per cent of the total capital.

Oslo/Cairo, 15 June 2025: Scatec ASA has reached financial close for the “Obelisk” hybrid solar and battery storage project in Egypt. The non-recourse project financing comprises USD 479.1 million provided by the European Bank for Reconstruction and Development (EBRD), African Development Bank.

Scatec plans to start construction within 12 months. The total cost of the project is estimated at \$650 million. Around 80% will be funded through project debt, while the remaining amount will come from equity investments. Scatec owns 100% of the project but plans to bring in additional equity.

Independent power producer (IPP) Scatec has raised US\$479 million for its Obelisk hybrid solar and battery storage project in Egypt. The funding is being provided by the European Bank for Reconstruction and Development (EBRD), African Development Bank (AfDB), and British International Investment.

Scatec ASA has reached financial close for the “Obelisk” hybrid solar and battery storage project in Egypt. The non-recourse project financing comprises USD 479.1 million provided by the European Bank for Reconstruction and Development (EBRD), African Development Bank (AfDB), and British.

Scatec, a renewable energy solutions provider, has secured \$479.1 million of non-recourse project financing to develop the Obelisk hybrid solar and battery storage project located in Egypt. The funding, which corresponds to approximately 80% of the total estimated capital expenditure of \$590.

Total investment cost of solar storage container project in Egypt

Scatec reached financial close for Obelisk PV & BESS project in Egypt

Egypt's 1.1 GW Obelisk hybrid solar and storage project, led by Scatec, has secured \$479.1 million in funding from EBRD, AfDB and BII, covering 80% of total costs.

China New Energy Abroad: CEEC Largest Solar Storage Plant in Egypt

On December 14, 2024, the largest integrated photovoltaic and storage power station in Egypt, which was built by China Energy Construction, officially started construction in this area. The ...
