Turnkey mobile ESS unit EPC contract price in Panama

Overview

What is the ICC model turnkey contract for major projects?

The ICC Model Turnkey Contract for Major Projects responds to the market's need for a reliable and equitable template, providing a set of clear and concise standard provisions regarding provision of a turnkey project that will save parties time and money in the negotiation process.

What is a turnkey contract?

Turnkey contracts take a range of forms and at present no single model contract covers them all. As part of the suite of model construction contracts, the International Chamber of Commerce (ICC) developed the ICC Model Contract Turnkey Supply of an Industrial Plant.

Why is International Turnkey Construction important?

International turnkey construction projects are often complex transactions, requiring correspondingly complex legal documentation. Moreover, many such major construction projects are an important element in international development, and it is vital that the arrangements put in place be durable, clear and equitable.

What is an EPC pricing effort?

When done properly, an EPC pricing effort is an aggregate of producing material takeoffs (MTO's), completing labor studies, adequately negotiating major equipment packages, and defining the balance of plant cost risk. In other words, data-driven analysis, and assumptions.

Do EPCs subcontract?

Most EPCs subcontract out a portion of their work. Many of them subcontract most if not all. The most common subcontracts are specialty trades or supply install equipment packages (vendor installed). An EPC can execute entirely as a General Contractor (GC), but the ability to self-perform is typically

advantageous.

What are the components of an EPC contract?

There are four influential components of the EPC contract. To understand cost risk, you must first understand how an EPC contract is priced (when done correctly): 1. A Front-End Engineering & Design (FEED) package is completed, often utilizing the Front-End Loading (FEL) process.
