

## Global PV Storage Insights

# VRFB energy storage supplier quotation in Ireland 2025

## Overview

---

Who makes VRFBs in South Africa?

Local manufacturer Delectrik has delivered VRFBs locally and started to deliver for export, as well. Bushveld Energy achieved financial close and started construction on a minigrid featuring 3.5MW of solar PV and a 4MWh VRFB from CellCube. The minigrid is an IPP that sells energy to a mine. The VRFB used vanadium mined by Bushveld in South Africa.

Does Ireland need a policy framework for energy storage?

A robust policy, regulatory and commercial framework is needed to allow the deployment of energy storage in Ireland at the scale required to achieve current renewable policy objectives and our long-term decarbonisation ambitions. However, the current policy framework is unsuitable to deliver the volumes and types of energy storage we will require.

What is the electricity storage policy framework?

The Electricity Storage Policy Framework presents 10 government actions to support the role of electricity storage systems in Ireland's energy transition, identifying the key stakeholders and timelines for these actions. These actions are: Maintain a technology neutral approach to all electricity storage systems.

Why is the VRFB supply chain important?

Nearly every region of the world is seeing activities by VRFB companies and the supply chain. The number of activities along the supply chain is increasing, which is important to allow for start up battery companies to deliver more and larger VRFBs. Plus, multiple established companies are entering the VRFB industry and its supply chain.

Will DS3 tariffs affect energy storage in Ireland?

While the energy storage pipeline in Ireland remains strong, it is unlikely to see a similar growth in built capacities until a few years from now. The

potential cut-backs in DS3 tariffs may also pose risk in the development of this market.

Which companies are making VRFBs?

Tdafoq Energy Partners and Delectrik Systems signed a distribution and manufacturing agreement for VRFBs. Tdafoq will set up a VRFB manufacturing plant in Saudi Arabia, which will be scaled to a GWh capacity by 2025. Bushveld Minerals completed partial refurbishment of its Vanchem plant, which produces high purity pentoxide.
